Did You Know....

The Titanic sank at 2:20 am on April 15, 1912. Traveling at 22.5 knots, the ship was only 0.5 knots away from reaching its maximum speed. It is therefore thought that the ship was traveling too fast for the conditions in which it met its fate.

More facts about the ship and its fate:

2024 Castle Rock Water Rates

Customer rates are expected to increase by an overall 4% in 2024. This is primarily due to the continued move to renewable water supply and the infrastructure needed for this sustainable water future. Some projects on the near horizon include several new water wells, Plum Creek Water Purification Facility expansion, additions to WISE imported water infrastructure and a new water tank. In 2023, water sales were down due to excessive rain and development has dropped significantly impacting system development fee revenue, making this a financially challenging year. Rates and fees are thoroughly vetted at the monthly Water Commission meetings before being presented to Town Council for consideration.

Cartons | Paperboard | Phonebooks and paperback books

Plastics

Rigid plastic | Bottles and containers | Plastics #1-7

Metals

Aluminum cans, foil, and pie plates | Steel cans
Loose metal jar lids and bottle caps

Glass

We are now accepting clean and washed out glass in your curbside recycling bin.

Please

- Empty and rinse all containers
- Place recyclables loose and unbagged in your curbside recycling container
- Flatten all cardboard and paperboard boxes
- Place your recycling container 4 feet from parked cars and other obstacles

NOT ACCEPTABLE RECYCLING ITEMS

What items CAN NOT be recycled?

Please DO NOT place the following products in your curbside recycling container.
NO GARBAGE | NO PLASTIC BAGS | NO PLASTIC FILM | NO STYROFOAM®

NO PLASTIC BAGS OR FILM: We cannot accept plastic bags in your curbside recycling bin. Plastic bags can be recycled at most local grocery stores.

NO NON-RECYCLABLE PLASTICS: We accept plastics #1-7 but there are some plastics that are not recyclable. These products include Styrofoam, hard plastic items including toys, plastic chairs, flower pots, PVC pipes and any other plastic products that are not listed in these guidelines.

NO LIQUIDS OR FOOD RESIDUE: Please completely empty and rinse out all containers before recycling.

NO CERAMICS OR OTHER GLASS PRODUCTS: Do not place glass, ceramics, china, dishes, mirrors, light bulbs, Pyrex, porcelain, or window glass in your curbside recycling container.

NO SCRAP METAL: Do not place scrap metal items of any size in your curbside recycling container.

NO ELECTRONICS: Do not place electronic devices in your curbside recycling container.

NO HAZARDOUS WASTE: We do not accept hazardous waste such as oil-based paint, automotive fluids, car batteries, fertilizers or pesticides. Latex paint recycling locations can be found on PaintCare.org.

Planting Trees in Spring

By Will Heikes, Colorado Master Gardener

Did you know that spring is a great time to plant trees? That's right! When the weather is cooler, the ground is warming, and it's not too hot outside, is the perfect time to get your trees started.

What Kind of Tree Should I Plant?

You may have heard that in Colorado, fall is the best time to plant trees, and in many cases that's right. However, that doesn't mean that spring isn't still a good time to plant a tree! The trick is to plant the tree when it's ready to grow in the soil in your area and to make sure it doesn't dry out in what is often a long, hot summer. Choose locally grown trees when possible, to ensure they're best acclimated to our climate. Many trees are shipped here from the southern USA, and these will need plenty of babying before they're ready to perform for you in our dry air and intense sunshine.

How to Plant Your Tree

Planting trees may sound as easy as digging a hole and plopping your tree in. You can do that, but you wouldn't be setting your tree up for success! Planting your tree comes down to three

key steps. First, dig yourself a hole, but not just any kind of hole. Dig out a dish shape that extends about 2-3 feet from the "root ball" of your tree. The dish should be about 1 inch shallower than the height of your root ball. Make sure the root flare, where the trunk begins to widen as it meets the soil, is visible—this should rest an inch above the final grade. The hole should slope downward toward the center, and finish up with what we call a "donut." This donut is a ring of soil directly in the center on which you can place the root ball of your tree. This type of hole allows your tree to grow long-extending roots, rather than circling roots that can be promoted by a narrow hole.

Second, place your tree on the donut in the center of your hole, and fill the hole with soil. There's no need to amend the soil in the hole; in fact, this can hurt the tree's growth in the long run. Don't forget to cover the soil with mulch. Mulch is great for keeping unwanted weeds and other pests from bothering your tree as it gets established and for keeping the root ball moist. Make sure to leave at least a three-inch space between your mulch and the tree trunk. A layer of mulch four inches deep will suppress weeds.

Last, water! When you're working to get a tree established, water is essential. I usually recommend watering your trees every other day, and even more during hot periods. Getting a tree established is a long process, but it's worth it! If the soil in the top inch or so of the root ball of the tree is dry, water it!

When I was growing up, my family bought over 20 small pine trees to water across our yard, and we didn't do any of these things! We planted in the middle of summer, didn't dig the hole properly, planted on the sides of a hill, and didn't use any mulch. Guess how many survived? Two. Make sure you don't treat your trees the way that we did, and set your trees up for a long healthy life!

We have been advertising in the Porchlink newsletters for almost 2 years now. The staff is always professional and pleasant to work with. The newsletter has been very helpful in getting business for our small plumbing company. The ad usually pays for itself each month because so many people use it to get reasonable, trustworthy services.

Smitty's has advertised with Porchlink over the course of several years and we find the experience seamless. As a seasonal business we often find ourselves with an exceedingly large workload in our day to day processes and we greatly appreciate that we can count on Kerri at Porchlink to touch base with us to ensure we have our ad out. We have worked with other companies responsible for HOA newsletters and found when it came to us the advertisers, our needs were never a priority. The professional working relationship we've exercised over the years with Porchlink has surpassed our needs. We would recommend them to any business looking to get their name out to the community.

Using Maps in Genealogical Research – Part One!

Presented by Dr. Melinda Kashuba

We will be looking at the many ways genealogists use maps in their research. There are multiple types of maps, which can be found in many ways; We will talk about the different collections available. The most useful map may not be a “map,” so we will explore other means of searching for a location.

Bio: Melinda Kashuba holds a PhD in geography from UCLA. She has worked as a genealogical/historical researcher for over thirty years.

Specialties include problem-solving, analysis, organization of client research, and writing. She performs research or develops research plans for clients on an hourly basis. She also searches modern public records (nineteenth century to the present) from Northern California courthouses, libraries, and archives. “Johnson, Jones or James, English Ancestry is All Around Us”

Presented by Sylvia Tracy-Doolos

As a result of the Revolutionary War our ancestors often identified less as English and more as American patriots. Yet, over half of the 100 most common surnames in America could be English. Let's look at the hidden history of being English in America and unravel why.

Bio: Sylvia Tracy-Doolos is President of the International Society of British Genealogy and Family History, and the Colorado chapter of the Association of Professional Genealogists, and Past President of the Wales, Ireland, Scotland, England Family History Society (WISE-FHS). She has a B.A. in History and

minored in English focusing on linguistics. Free, register at <https://www.crcgs.org>
