Thinking of advertising with Porchlink?

Smitty's has advertised with Porchlink over the course of several years and we find the experience seamless. As a seasonal business we often find ourselves with an exceedingly large workload in our day to day processes and we greatly appreciate that we can count on Kerri at Porchlink to touch base with us to ensure we have our ad out. We have worked with other companies responsible for HOA newsletters and found when it came to us the advertisers, our needs were never a priority. The professional working relationship we've exercised over the years with Porchlink has surpassed our needs. We would recommend them to any business looking to get their name out to the community.

What you need to know about vehicles and street parking in Castle Rock

Can anyone park in front of your house? If your house has a nice shade tree near the curb, everyone wants to park there. What does Castle Rock code have to say about this? Town code does not designate the street space in front of a home as belonging to the homeowner; the streets are open to all, so technically it's perfectly OK for someone to park there. Here is what else Town code says:

- Vehicles stored on your property must have valid license tags and be in operable condition.
- An "abandoned vehicle" is generally defined as a vehicle standing on any portion of a street/right of way, or in a public parking lot for more than 72 hours; or a vehicle left unattended on private property for more than 24 hours without the consent of the property owner.
- A "junked vehicle" means any vehicle partially dismantled, wrecked or discarded, or any vehicle which is found to be inoperable, without valid licensing tags.
- All vehicles including boats, trailers and recreational vehicles, must be parked on a driveway, parking lot or other improved surface. Parking on grass or dirt is not allowed.
- Trucks, tractors and/or semi-trailers in any combination, may not be parked or stored on any lot or street in any residentially zoned area.
- Vehicles must be parked a minimum of 30 feet from the approach to any flashing beacon or signal, stop sign, yield sign or traffic control signal.
- Vehicles, including RVs, may park on a street/right of way for up to 72 hours consecutively, without moving; after 72 hours, the vehicle must move to another parking location.
- If you would like to report a vehicle in a right of way (street, alley, etc.), please contact the Police Department's nonemergency line at 303-663-6100 and ask for a Traffic Officer, or report the issue via email to PoliceTraffic@CRgov.com.

With the above rules in mind, consider practicing courtesy when parking. Few things will sour a relationship with your neighbor quicker than parking where you shouldn't; take care not to block driveways, obstruct the sidewalk, or park facing the wrong direction. All neighbors appreciate being able to park in front of their own home, so please consider this when you or your guests are parking.

And now it is Fall.

Now you can enjoy your PSLs and pumpkins and leaf-peeping. I am what you call an “equinox seasonal” kind of person. End of summer and start of fall does not occur on Labor Day weekend. On the contrary, fall’s official calendar start is September 22nd. And still, we will likely not get our first frost until early October. Spring and summer flowers—indeed all gardening activities in spring and summer— get all the hype. But as the Earth starts to calm its “buzzy-ness” in preparation for winter, fall flowers that can take a frost or two come into their own.

You may still have time to invest in fall-blooming flowers at your local garden center as they are holding their end of season sales trying to move inventory off the shelves. Everyone enjoys mums, sedums, and pansies (1073 – Pansies for Seasonal Color – PlantTalk Colorado (colostate.edu)) but here are some more flowers to look forward to in fall.

One of my favorites is **Hot Lips Turtlehead, (Chelone)**. Yep--it is an herbaceous perennial plant and not a band. Cheerful spikes of pink snapdragon-like flowers emerge above the spreading foliage in late summer. It thrives in shaded settings and prefers moist conditions.

As a novice gardener, one might first strive for a one- or two-season garden (spring and summer). But strive for a three-season or even four-season garden. What does this mean? A four-season garden provides interest, beauty, food and shelter year-round. What will you add this fall to your garden?

For more fall gardening ideas, check out Fall Gardening – PlantTalk Colorado (colostate.edu)

All manner of **Asters (Symphyotrichum)** can be found even at the grocery store at this time of year, and come in purples and pinks. They are adored by pollinators and are an eye-catching display in fall. These plants can take a frost no problem. Plant them in the front of the border, where their tidy form through the summer will erupt into a flowery garden encore late in the season. A favorite aster variety is Grape Crush. 1014 – Fall Asters – PlantTalk Colorado (colostate.edu)

Goldenrod (Solidago) can be both a garden beast or rather well-behaved plant depending on variety. Goldenrod is a native plant and is also a pollinator fav when little else is blooming. ‘Fireworks’ goldenrod, true to its name, looks like an explosion of tiny yellow flowers, and ‘Little Lemon’ goldenrod is a tiny cutie patootie. They are undemanding yet easy to grow and drought-tolerant. Goldenrod – Adams County Extension (colostate.edu).

Incidentally, they are not responsible for as many allergies as they are blamed for—but coinciding bloom time with the much less desirable ragweed makes them guilty by association in the minds of many.
