Roses, Springtime, and Colorado

Brought to you by the CSU Extension Master Gardener Volunteers of Douglas County, CO

With Valentine’s Day right around the corner, everything is coming up roses! Well, not quite, but very soon it will be time to look at your existing garden and plan for any changes. You may wish to incorporate new roses, or add in complementary plants to fill out the garden bed.

Roses have a reputation for being difficult to grow. Au contraire!

Once established, many roses are a basic, easy-to-grow shrub. Colorado and roses do quite well together, despite the freezing temperatures and mounds of snow we usually receive in winter.

Winter in Colorado means dormancy, which is how many outdoor plants survive the cold. To protect themselves, rose plants have shed their leaves from last season and stopped producing new growth.

With the crazy weather we have had thus far this winter – periods of balmy, springlike temperatures punctuated by a quick snowstorm here and there, some plants are rightfully confused! They have been fooled by this stretch of warm weather and are prematurely budding or sending out new shoots. Roses, however, will normally show these same indicators in late February and early March as signs that they are coming out of their dormancy.

So how can you ensure a successful rose season this year? Follow these simple guidelines.

- **WATER:** First up is to not forget to water your roses during those extended periods of warm days and dry conditions. All perennials will benefit from this needed moisture until seasonal rains and summer sprinklers kick in. Winter watering should continue unless the ground is frozen—aim to provide plants an inch of water per month. When natural precipitation falls short of an inch, pull out the hose.
- **PRUNE:** Your next task would be to make a plan for pruning. Determine when the last frost date is in your area, and count back four to six weeks – this is the ideal time to prune most rose plants. Prioritize removing branches that are dead or unhealthy. Then, prune to open up space in the plant for better air circulation, and then for shape.
- **CLEAN UP:** Once the weather improves, the snow disappears and the cold lessens, you can get out to your rose bed and begin cleaning up the area. Rake and remove any fallen leaves, garden debris, and weeds. Leave the plants mulched for now, as the mulch helps keep the root zone cool, preventing early waking!
- **THINK SMALL:** Did you know that the miniature rose plant you received for Valentine’s Day could become a permanent addition in your Colorado landscape? That’s right – miniature roses, if cared for indoors until the last frost has passed, may be transplanted successfully into your backyard garden, window box, or outdoor planter. These tiny indoor beauties often become root-bound and underdeveloped in their original containers. Transplanting outdoors provides more room for the plant’s roots to expand, a higher quality of soil in which to grow, plus additional sunlight and fresh air – leading to a better chance for success and healthy growth in the long run.
- **ENJOY:** One of nature’s most beautiful offerings, the rose can add years of enjoyment and beauty to your home landscape. From the hardy shrub rose, showy grandiflora, native Wood’s rose, to a dainty miniature rose, your options abound.

Trash/Recycling Update:

HBS Trash pickup times do not occur at the same time each pickup day and operate 7:00 AM – 7:00 PM. Because of this, if residents contact the HOA office, we may not immediately know if a pickup is delayed earlier in the afternoon. The best way to stay informed is to sign up for notifications from HBS Trash for your address here: <https://forms.gle/Mqgnw2VPY6SX3f7E6>. To ensure these notifications do not go to your junk folder, please add postmaster@hbstrash.com to your contacts. Pickups may be delayed due to hazardous materials in containers, such as motor oil, which require the truck to halt for safe cleanup, extra pickups, including this year's heavy leaf volume, which causes trucks to fill faster and requires additional trucks, or weather conditions. The contact for HBS Trash can be by email at customerservice@hbstrash.com or by phone at 720-547-8600 (Monday–Friday, 8:00AM – 5:00 PM)..

As a reminder, the street snow removal is provided by the Town of Parker. Their website can be found at <http://www.parkeronline.org/491/Snow-Operations>

Also, while it is not required, it would help tremendously for getting out of your driveway if you also shovel the gutter area so the snow and/or melting snow can have somewhere to go instead of building up, creating an issue with getting out of your driveway.

Once a response has been provided, a response letter may be mailed to the address on file and will also be available by logging into the homeowner portal.
