The Covenant Corner

Spring has arrived, now is the time to start thinking about “spring cleaning” for all lawn and landscape tasks. April is the best time of year to start clearing debris, removing dead branches from trees and shrubs, begin mowing, and any General Maintenance. Spring is also a good time to check that your sprinklers are in good working order before summer, along with raking, aeration, lawn fertilization, and weed control.

Please take a moment to check the Community Covenants, Guidelines, and any Resolutions for the Landscape requirements.

As a reminder, General routine upkeep and weekly maintenance such as bed weeding (the definition of a weed is: a plant held to have no value, especially one growing plentifully and detrimentally in a garden, lawn or bed area), fertilizing, regular mowing, pruning, trimming, and a review of your water management program, etc. The Association would appreciate your attention in taking a look at your yard and having any necessary routine maintenance completed.

Click “Sign Up” → “Don’t have an account number & registration key?” → submit a login request. No registration key needed. Allow up to 48 hours to receive your login info.

Questions? Email Accounting@pcms.net. We’re here to make the process easy!

Architectural Answers

With Spring upon us, let’s talk about landscaping. With current weather patterns, it seems like this could be a hot one and conserving water and water restriction may be a real possibility. If you are wondering if xeriscaping is allowed, the answer is YES! There is even pre-approved landscaping option available for your convenience on the community website www.foundersmasterhoa.com.

Please understand that all changes to the current landscaping and/or the installation of new landscaping does require approval, prior to work commencing. For additional details regarding landscaping requirements, please refer to the community guidelines, also available on the community website provided above.

Application Review Procedure of the Architectural Control Committee (ACC)

Our ACC has established a process for the receipt, review and response of all design review requests. The ACC will schedule and convene meetings as necessary to review homeowner applications submitted to the management company, PCS. **The ACC will do their best to provide responses to all request within 5-7 business days, from the date a request is checked in. However, please note that while the ACC tries to adhere to the noted turnaround time, per the Guidelines they have 45 days to review your request.**

Once a response has been provided, a response letter may be emailed to the email address noted on the submittal form and will also be available by logging into the CINCWeb Axis homeowner portal at, pcms.cincwebaxis.com.

Please email designreview@pcms.net with any questions and/or to submit your request for review.

Invite Native Bees Into Your Garden This Season

Looking to welcome more native bees into your garden this year? You're in luck! Colorado is home to more than **1,000 species of native bees** (yes, really!), and the familiar honey bee isn't one of them. These native pollinators are gentle, fascinating, and incredibly important to our ecosystems. With a few thoughtful plant choices and simple garden practices, you can turn your yard, or even your patio, into a haven for them.

Meet Colorado's Native Bees: Unlike honey bees, most native bees are solitary, meaning they don't live in hives or defend a queen. They tend to keep to themselves and are focused almost entirely on collecting nectar and pollen. Because of this lifestyle, most native bees are not inclined to sting, and many don't have enough venom to cause more than mild discomfort, even if they try. Some anecdotal observations suggest that bumblebees may be capable of recognizing individual faces, contributing to their reputation as especially tolerant and approachable pollinators. They're truly some of the most peaceful garden visitors you can invite in.

Plant for the Entire Growing Season: One of the most important ways to support native bees is to provide flowering plants from early spring through fall. Different species emerge at different times, so a continuous bloom ensures that food is always available. A simple way to identify gaps in your landscape is to take a seasonal garden walk and observe what is flowering and which plants are attracting bees. If little is blooming after August, focus on adding late-season plants. If few flowers are present before June, prioritize early-season bloomers. Below are plant suggestions broken down by season that perform well in Colorado landscapes.

Spring Bloomers: These plants are critical for bees emerging in spring when food sources are limited: *Blue Flax, Pasque Flower, Chokecherry, Nodding Onion (a fun favorite, after flowering, the stem bends down to reseed itself), Serviceberry, Flowering fruit trees, Penstemon, Purple Geranium.*

Summer Bloomers: These plants help sustain bees through the peak of summer: *Asters, Blanket Flower or Gallardia, Salvias, Showy Milkweed, Yarrow, Squash, Prairie Coneflower.*

Fall Bloomers: Late-season flowers are essential for bees preparing for winter: *Goldenrod, Sunflowers (choose varieties that produce pollen), Coreopsis or Tickseed, Hyssop, Asters, Sedum.*

Planting Tips for Success: Native bees are more likely to visit plants that are easy to spot and access. Aim to:

- Plant in full sun whenever possible
- Group plants in larger swaths rather than single, scattered specimens
- Choose a variety of flower shapes and colors

If space is limited, don't worry, you can still make a big impact with containers.

Create a "Bee Café" Container: A bee café is a fun and educational way to attract pollinators, especially for patios, balconies, or small yards. It's also a great activity to do with kids. **Here's how to make one:**

1. Visit a local nursery and observe which plants already have bees on them. Let kids help spot the busiest plants.
2. Plant your chosen bee-friendly flowers together in a large container.
3. Add a shallow dish of water (change it often to keep it fresh).
4. Finish it off with a cute, homemade "Bee Café" sign to celebrate your pollinator-friendly space.

Recycling Guidelines

Trash carts must be out at 7am until 7pm | Trash Pick-up on Thursdays* highlighted | Recycling every other week

Trash/Recycling Update:

HBS Trash pickup times do not occur at the same time each day and operate 7:00 AM – 7:00 PM. Because of this, if residents contact our office, we may not immediately know if a pickup is delayed earlier in the afternoon. The best way to stay informed is to sign up for notifications from HBS Trash for your address here: <https://forms.gle/Mqgnw2VPY6SX3f7E6>. To ensure these notifications do not go to your junk folder, please add postmaster@hbstrash.com to your contacts. Pickups may be delayed due to hazardous materials in containers, such as motor oil, which require the truck to halt for safe cleanup, extra pickups, including this year's heavy leaf volume, which causes trucks to fill faster and requires additional trucks, or weather conditions.

How to Share your Family History in a 3 Minute Story
Presented by Sunny Jane Morton
Virtual/ZOOM - Members Only

We all have a story to tell—even if we don't know “THE” ending of the story yet. It's a story already if there is action and meaningful change. Many of us could use practice telling the 3-minute version of our stories (since that's what most people want to hear). Join Sunny as she guides us through the “How”. Sunny is a genealogy educator who has created hundreds of articles and tutorials for genealogists. She is a Contributing Editor at Family Tree Magazine (US); Content Director at Your DNA Guide; co-author of the award-winning How to Find Your Family History in U.S. Church Records; and author of Story of My Life: A Workbook for Preserving Your Legacy, now in its 2nd edition. What the Law Put Asunder: Divorce in America
Presented by Sara Cochran
Virtual/ZOOM - Open to Everyone

Historically, divorce in the United States was rare, but not unheard of. This class considers changing laws and social attitudes as they relate to marriage and divorce, how those laws and attitudes affect our research and the records, and provides tips for determining if there was a divorce and accessing those records. Sara is a full-time professional genealogist with over twenty-five years of research experience. She holds a Boston University Genealogical Research Certificate, a Bachelor's Degree in Library Science, and is an alumna of the ProGen Study Group. Class Registration at <https://www.crcgs.org>

MONDAY - SHARE: HYBRID/ Castle Rock Library or ZOOM - Everyone Welcome! Every Monday (except Holidays) from 10 AM to 12 NOON (MST). Join us for a collaborative problem-solving discussion, whether you are a beginner or an experienced researcher. Walk-Ins Welcome! SHARE: Genealogy for Support, Help, And Research Experience. If you attend by ZOOM, please register at <https://www.crcgs.org>
